EDUCATION

Jeju National University

Jeju, Korea

B.S. in Computer Engineering (Mar 2018 - Jul 2024)

- *Coursework:* programming with Python, Java, Linear Algebra, Data Structure, Operating System, Computer Network, Computer Graphics, Computer Architecture, Machine Learning

Machine Learning Lab, Jeju University

Jeju, Korea

Undergraduate research student (Mar 2020 - Nov 2020)

West Visayas State University

Iloilo, Philippines

Language training abroad (Dec 2020 - Jan 2021)

WORK EXPERIENCE

BHSN.AI

Seoul, Korea

AI Model Solution Engineer (Oct 2025 -)

- Design context engineering pipelines for multi-step agent workflows in contract review and legal research
- Develop LLM/Agent evaluation pipelines to measure quality, hallucination, and cost efficiency
- Train Legal-LLM via post-training (SFT, DPO) to improve domain-specific performance

Docenty

Seoul, Korea

AI Backend Engineer (Dec 2024 - Aug 2025)

- Develop and optimize RAG pipeline with hybrid search
- Achieving high IR performance for commers/construction content

NCSOFT Corp.

Seongnam, Korea

Internship as NLP Engineer (Sep 2024 - Dec 2024)

- Compose Korean-Vietnam parallel data.
- Compose RAG data

TUNiB Inc.

Seoul, Korea

Internship as NLP Engineer (Jul 2021 - Jan 2022)

- Korean large corpus data crawling.
- Detecting Korean hate-speech and severity

Nanoom Energy Inc.

Jeju, Korea

Internship as Software Engineer (Jun 2020 - Jan 2021)

- Prediction for electrical energy of solar panel

ACTIVITY

JipHyeonJeon

NLP paper review meeting (Dec 2020 - May 2021)

- had a presentation about BERT paper
- github.com/jiphyeonjeon/season1

Geultto season5

Technical article posting and peer review meeting (Oct 2020 - May 2021)

- had a presentation about BERT paper
- <https://github.com/geultto/geultto-contents/issues/1>

UMLC2020 x BlockChain Camp

Jeju, Korea

Technical article posting and peer review meeting (Aug 2020)

- had a presentation about BERT paper

OPEN SOURCE PROJECT

Transformers

Open-source contribute HuggingFace (Sep 2024)

- Korean tutorial document

NLLB-200 Distilled 350M en-ko

English to Korean translation model based on facebook NLLB-200 (Apr 2024)

- knowledge distillation
- github.com/newfull5/NLLB-200-Distilled-350M-en-ko

TUNiB-Electra

Pre-trained Korean encoder model (Sep 2021)

- compose training dataset and preprocess
- github.com/tunib-ai/tunib-electra

Stereotype-Detector

Korean stereotype detector with tunib-electra and k-stereoset (Nov 2021)

- github.com/newfull5/Stereotype-Detector

AI Poet-KoGPT2

Generative model for Korean poetry (Jun 2020)

- fine-tuning KoGPT2 from SKT-AI
- github.com/newfull5/AI_Poet-KoGPT2

PUBLICATION

하드웨어 초보자 가이드

오세찬 저 (사도출판)

eBook - basic knowledge about computer system (Oct 2019)

- ridibooks.com/books/2773000027

SKILLS & INTERESTS

- *Programming Languages*: Python, Shell Script, SQL
- *Deep Learning*: Pytorch, PyTorch-Lightning, Transformer
- *MLOps*: FastAPI, Flask, Docker

TEACHING EXPERIENCE

- [스마트인재개발원] 2025 SW전문인재양성사업 - 언어지능과정 핵심프로젝트 멘토링 (May 2025 ~ Jul 2025)
- [언더독스] 2025 하나 소셜벤처 유니버시티 - 2025 AI 트렌드와 업무효율화 강연 (May 2025)

AWARDS

- **Encourage Prize** - *2023 RoKAF Business Contest*

MILITARY SERVICE

Republic of Korea Air force

Gimhae, Korea

Sergeant (May 2022 - Feb 2024)

- Network Control personnel in 5th Air Mobility Wing
